

Craft and Design

Explore the world of craft and design by sampling a range of enjoyable hand-made projects with an experienced teacher. Tap into your creative side as you learn how to craft hand-bound books, handmade cards, embroidered decorations, and more. This class is suitable for novices who have always wanted to try crafts but never had the time, but will also be enjoyed by more seasoned crafters seeking to explore new ideas and meet like-minded people. Each week, the teacher will demonstrate some specific techniques at the start, and students will then create their own pieces in the class. Students will also receive handouts on the techniques they will be learning. Materials will be provided by the teacher, but students can also bring in their own materials.

Book Making

Explore the world of book making using a few different book binding techniques.

Card Making

We will create beautiful hand-made cards, including simple pop up cards.

Christmas Decorations

Using felt we will create embroidered decorations stuffed and hand sewn using ribbons and buttons to embellish.
