

# WHAT HAS BEEN HAPPENING IN TY?

## Fantastic Forensic Fun!

It was all about Forensic Science in room 306 when our TYs put on their investigative caps in search of clues to solve JFK's Assassination. What a fantastic morning! The room was buzzing as students tried out virtual reality goggles and fingerprint testing. The class had been studying this topic in history class and so they were delighted to learn more about this unsolved case.

# Raising money for Motor Neurone Disease

Our wonderful TY students organised a craft sale and Christmas Jumper Day in aid of research into Motor Neurone Disease. The whole school got involved and supported this very worthy cause. A total of 625.00 euro was raised. Well done everyone!

# Secret Santa

To get into the Christmas spirit the class took part in Secret Santa. It was so lovely to see the thought that students put into buying presents for each other. They celebrated the morning with hot chocolate, some treats and some Christmas music.

# Go Quest

The group put their brains to the test when they took part in Go Quests Indoor Challenge Experience. It was a tough competition. Well done to the winning team.

# Backstage tour of the Lir Academy

The class were invited back to the Lir Academy to explore behind the scenes in the run up to their December Show. It was a wonderful morning learning about set construction, light and sound programming and we even got to take a tour of Lir's costume department.
